

Temperature Element Assemblies

(Suitable for Temperature Transmitter)

Special Assemblies

General has the capability of supplying temperature Element (T/c as well as RTD) assemblies suitable for temperature transmitters. The transmitter either can be mounted in the enclosure (Head) or connected to the extension (in the form of Nipple-union-nipple) that comes with built in enclosure. (with or without indication) The assemblies are offered complete with element, head & thermowell. In either case, the spring loading is provided ensures proper contact of the element to the bottom of thermowell. Moreover the assembly (if the transmitter is in our scope) will be duly calibrated.

The assemblies are generally suitable for various models of reputed make. We have been supplying these to major transmitter manufacturers across the globe.
